DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-9, drawn to laminated glass.

Group II, claim(s) 10 and 12, drawn to stair tread.

Group III, claim(s) 11 and 13, drawn to risers, guard rails, tiles, partitions.

Group IV, claim(s) 14-22, drawn to structural glass block.

Group V, claim(s) 23-27, drawn to safety illumination system.

The inventions listed as Groups I - V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common technical feature in the claimed inventions is the addition of an element, such as sensors, lighting, displays, or conductors, to known products such as laminated glass, stairs treads, glass blocks, etc. The addition of these elements to the known products is not a special technical feature and do not make a contribution over the prior art. Adding elements such as sensors and lighting to structures such as laminated glass and glass block are well known steps taken in the prior art.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
